

The 15th Clean Energy Expo China

New Quality Productive Forces Empower Supply Chain:
Greening, Powering, and Transforming

March 26th-28th, 2025
China National Convention Center (Phase I & II), Beijing

INVITATION LETTER

INVITATION LETTER

As the world is focusing on sustainable development and addressing climate change, clean energy has become the core driving force for energy transformation. As a leading country in clean energy investment, production, and consumption, China is actively pursuing dual carbon goals and promoting global clean energy governance. Adhering to the principles of openness and cooperation, China seeks international cooperation in multiple fields to facilitate global energy transformation and jointly move towards a cleaner, greener, and better future.

This sets the strong foundation for the 15th Clean Energy Expo China, which is scheduled to be held at the China National Convention Center in Beijing from March 26 to 28, 2025. It is jointly organized by China Electricity Council, China Photovoltaic Industry Association, China Hydrogen Alliance, Construction Industry Sub – Council, CCPI, China Overseas Development Association and other entities.

This expo takes "New Quality Productive Forces Empower Supply Chain: Greening, Powering, and Transforming" as its theme and consists of three themed exhibitions, namely Photovoltaic Innovation and Application Exhibition China 2025, The 3rd China Energy Storage Conference & Exhibition, The 4th Hydrogen Energy & Fuel Cells Expo China 2025. The three exhibitions, interconnected through resources and platforms, foster integration among PV, energy storage, hydrogen, and electricity sectors. It is expected that more than 600 enterprises will bring over 2,000 new products, technologies, and applications to the expo, achieving an exhibition area of 65,000 square meters and showcasing the cutting-edge achievements of global clean energy in all aspects.

Concurrent with the expo, a series of conferences will be held, including 2025 Economic Situation and Power Development Analysis and Forecast Conference, The 3rd China New Energy Overseas Investment Summit, The 3rd China Energy Storage Conference, Photovoltaic Innovation and Application Market Development Forum and China International Hydrogen Congress (CIHC). Many solar PV, energy storage, and hydrogen energy enterprises will also hold new product launches, themed seminars and other events, altogether 50+ sessions, providing insights into the industry and promoting international exchanges and cooperation.

Relying on the success of its previous 14 editions, CEEC 2025 offers an international exchange and cooperation platform integrating solar PV, energy storage, hydrogen, and electricity sectors, on which exhibiting, discussions, resource sharing and ecological supply chain integration can be realized at one stop. It is an important window for China to showcase its clean energy strength and promote international cooperation.

Sincerely welcome experts, enterprise representatives, enthusiasts and other stakeholders in the global clean energy field to attend this grand event! Here, you can gain insights into the latest development, explore the potential of the Chinese market, expand international connections and business opportunities, and jointly create a brilliant future for global clean energy!

• Themed Exhibitions •

Photovoltaic Innovation and Application Exhibition China 2025

The 3rd China Energy Storage Conference & Exhibition

The 4th Hydrogen Energy & Fuel Cells Expo China 2025

| Conferences (Partial)

NO.	Conference Names	Organizer
A	2025 Economic Situation and Power Development Analysis and Forecast Conference	China Electricity Council
B	The 3rd China Energy Storage Conference	China Electricity Council
C	Photovoltaic Innovation and Application Market Development Forum	China Photovoltaic Industry Association
D	Inaugural Conference of the Photovoltaic – Energy Storage Professional Committee of China Photovoltaic Industry Association & Photovoltaic – Energy Storage Integrated Development Forum	China Photovoltaic Industry Association
E	China International Hydrogen Congress & "15th Five-Year" Hydrogen Energy Outlook	China Hydrogen Alliance
F	The 3rd China New Energy Overseas Investment Summit	China Overseas Development Association

Note: The final schedule is subject to change on site.
